

Tips on wearing a mask with hearing aids:

- Try to wear a mask that ties behind your head or use a mask extender to clip the ear loops behind your head.
- Sit down to remove your mask so if your hearing aids get caught and fall out of your ears they will have a safe landing.

If you do happen to find hearing aids that are lost, please bring them into our hearing clinic so we can track the owner down by the serial number and return them to their rightful (very thankful) owner.

Call us to see how new technology can help you!

*Parksville Hours: Monday, Wednesday, Friday 9:00am - 4:30pm
Qualicum Beach: Tuesday and Thursday 9:00am - 4:30pm*
